DEATH AND DISASTER.

One of the Worst Storms in the History of Cincinnati.

Over \$1,000,000-Water at Pearl Street and Eggleston Avenue Was Five Feet Deep.

Cincinnati, May 21.-This city was the center of a terrific whirlwind, accompanied with a furious downpour of rain Tuesday forenoon. The wind blew from all points at the rate of 60 miles an hour, and the deluge of water lasted for 30 minutes, in which time about two inches of water fell. Thousands of cellars in business houses were flooded. In the wholesale district it is estimated the loss was \$1,000,000.

The storm was stated by the expert observers to be the most severe of its kind ever experienced in Cincinnati. The water in the vicinity of Pearl

street and Eggleston avenue was

fully five feet deep in a depression. George Becker, 32, widower, while driving along Queen City avenue was struck by a telegraph pole and knocked from his wagon. He was pinioned under the pole close to the ground, and drowned by the water that washed down the avenue.

Ferdinand Rapp, peddler, was caught in a rush of water into the cellar at 2133 Main street. Being crippled, he was unable to make his way out and was drowned.

Mrs. George Fleischner and the onemonth-old child of Mrs. Henry Willen were drowned at Baker and Lewis streets, Covington.

The swollen waters of Willow Run undermined the foundations and the building fell. Mrs. Willen escaped with one of her children, and it is supposed Mrs. Fleischner was attempting to rescue the baby and lost her

HUNDREDS OF REFUGEES.

The People Are Fleeing From Fort De France, Martinique.

Fort De France, May 21.—Tuesday morning at 5:30 a thick, heavy cloud, lit up by flashes of lightning, and the rising sun, rose from Mont Pelee. The people of Fort De France at once be-The Property Loss Will Aggregate came panic-stricken, and in scant attire rushed excitedly through the streets of the town. Stones from the volcano as big as hazelnuts fell in the streets. Many of the inhabitants hurriedly embarked on the vessels in the harbor, and it was with difficulty that they were eventually reassured. At 7 o'clock, however, the excitement was over and the people became calm. The phenomenon of Tuesday morning was similar to the eruption of Thursday, May 8, but not so severe. Gov. L'Huerre will leave here on the French cruiser Suchet to inform himself of the situation at St. Pierre.

A tidal wave has destroyed a portion of the village of Le Carbet.

It was learned later that a whirlwind of fire descended on the village of Le Carbet and fears are entertained for the lives of the troops who were supposed to be in that village.

Point Au Pierre, Island of Gaudaloupe, May 22.—The steamer Horten has arrived here with 200 refugees from Port De France, Martinique, on board. The French steamer Salvador also came in, having on board a thousand people, who were unable to remain at Fort De France. Everybody who can do so is leaving Fort De France. The refugees are in a pitiable condition. They all report that on the morning of May 20 Mont Pelee vomited a thick cloud of black smoke and threw hot mud and stones over the greater part of the island, while a heavy pall of smoke overhung Fort De France. The eruption was followed by flashes of incandescent light, and the panic-stricken people fled to the shore. It was reported at Fort De France that some people have been killed at Carbet, on the west coast, while Base Pointe, on the northeast coast, is said to have been completely

WALDECK-ROUSSEAU.

The French Premier Will Resign His Office June 1.

Paris, May 21.—The semi-official announcement that M. Waldeck-Rousseau would resign as soon as parliament reassembles, June 1, while not entirely unexpected, causes much comment in political circles here, and people are wondering why the premier waited until after President Loubet's departure for Russia to make public his decision.

Some people think that President Loubet has been putting pressure upon M. Waldeck-Rousseau to prevent Sarah A. Meyers, 74 years old, who his abandoning his post, and that the latter has taken advantage of the of the warehouse, and Ross Rauch, a president's absence to take this step fireman, were overcome by smoke, now, thus rendering his decision irrevocable.

PRESIDENT LOUBET.

His Reception at Peterhof, Russia, Was Marked By Warmth.

Peterhof, Russia, May 21.-The imperial yacht Alexandra arrived here at noon from Cronstad. President Loubet led the way ashore and shook hands with the assembled grand dukes and officials. The president and czar then entered a carriage, were driven to the railroad station and proceeded on the imperial train to Sarsko-Selo. The president's reception everywhere was marked by warmth.

President Palma Assumes Control of the New Nation.

Gen. Wood, His Staff and American Troops Embarked and the United States Ships Steamed Out of Havana Harbor.

Havana, May 21.—Cuba libre is a complete actuality. The transfer of United States, namely, Col. Theodore the control of the island from the F. Bingham, superintendent of public United States to the Cuban republic took place at noon Tuesday.

Senor Tomas Estrada Palma attached his signature to a document as president of the Cuban republic after an exchange of congratulations, and the veteran Gen. Gomez ascended to the roof of the palace, where he was accorded a great reception. Gen. Wood personally lowered the American colors, which were saluted and with his own hands hoisted the Cuban flag, as an act of the United States, Gomez assisting.

Gen. Wood and his staff and the American troops embarked immediately after the hoisting of the Cuban flag, and the American ships steamed out of the harbor. At the time the transfer took place in Havana, Gen. Whiteside, at Santiago, turned over his authority to his Cuban successor and sailed away with the American cavalry, which has been in garrison

During the early morning many troops of school children marched into the Plaza de Armas, ranged themselves before the palace and sang an American anthem.

At 10 o'clock a delegation from the Central Veterans club presented Gen. Wood with a handsome machete, having a beautifully engraved hilt. It has the Cuban coat of arms and a single gold star on one side-and the general's initials on the other in gold.

Washington, May 21. - President Roosevelt Tuesday afternoon received the following cablegram from the president of the Cuban republic:

Havana, May 20.—Theodore Roosevelt, President, Washington: The government of the island having been just transferred, I, as chief magistrate of the republic, faithfully interpreting the sentiments of the whole people of Cuba, have the honor to send you and the American people testimony of profound gratitude and the assurances of enduring friendship with wishes and prayers to the Almighty for the welfare and prosperity of the United States. (Signed) T. Estrada Palma."

President Roosevelt has also received the following cablegram from President Loubet, dated at Kroonstadt, Tuesday: "At the time when the Cuban republic is proclaimed under the mighty aegis of the United States of America, I make it my duty o offer to your excellency my very sincere felicitations and to send you the wishes that I form for the prosperity of the young republic. (Signed) Emil Loubet.'

The following dispatch was received at the white house Tuesday night from Gen. Wood at Havana: To the president of the United States, Washington D. C.: I have the honor to report to you that within compliance with instructions received. I have today at 12 o'clock sharp transferred to the president and congress of Cuba the government and control of the island, to be exercised by them under the constitution of Cuba. Documents sent to me were read to me, and Mr. Palma, in accepting the responsibilities on behalf of the island, expressed himself in kind and endearing words and thanks, thanked the republic of the United States and its officials for all that has been done for Cuba and for the fulfillment of promises made. The ceremony was most impressive, and I embark on the Brooklyn with my staff for the United States. (Signed) Wood."

THE PRESIDENT IN NEW YORK.

Delivers An Address to the Members of the Presbyterian Board.

New York, May 21.—President Roosevelt, accompanied by Secretary Cortelyou and Dr. J. F. Urie, of the navy, arrived at Jersey City at 6:08 o'clock Tuesday evening. The party remained aboard the train until 7:30, when the president crossed the river on the ferry boat to Thirty-third street and was driven to Carnegie hall.

While the train was in the yards at Philadelphia the president shook hands with a number of engineers, firemen and train hands, who were about the yard. One of these was James Bottomly, a fireman, whose brother-in-law, James McBlaine, was one of the rough riders, who made the charge up San Juan hili

The trip to Jersey City was without incident. While the president was at dinner in the dining car at Jersey City a committee of two, composed of A. Noel Blakeman and Robert Curtis Ogden, arrived later and accompanied the president to Carnegie hall, where the members of the Presbyterian board and distinguished audience had gathered to hear his address.

INITIAL RECEPTION.

The Representatives of the French Republic Arrive.

Annapolis, Md., May 22.—The initial reception of the representatives of the French republic, who are here to participate in the ceremonies upon the unveiling of the Rochambeau monument in Washington next Friday, took place on board the French battleship Gaulois in Annapolis roads at 2 o'clock Wednesday. The weather was ideal.

The commissioners representing the grounds in Washington; Assistant Secretary of State H. H. D. Peirce, and Commander B. R. Hodges, reached Annapolis from Washington on the 9:15 train and at once proceeded in carriages to the wharf, where they embarked on the dispatch boat Dolphin. commanded by Capt. Albert Gleaves. The commissioners were accompanied by the several members of the French embassy at Washington.

At 11:30 the Dolphin got under way, steaming slowly over the shallow channel to meet the incoming Gaulois. The Gaulois and the American escort, the Olympia, Alabama and Kearsarge, under the command of Adm. Higginson, were anchored off Greenberry Point light house, five miles below Annap-

The Gaulois anchored just as the Dolphin appeared upon the scene, fluttering her jack at the bow in token thereof. Some 200 yards on the bow of the French battleship Adm. Higginson's flagship, the Olympia, came to anchor, while the Alabama and Kearsarge took positions below the Olympia at points equidistant from each other. The Indiana, which lay between Annapolis and Greenberry Points light house, was the first to give a sign of welcome to the French warship. This was in accordance with naval etiquette and consisting of nothing more than hoisting a signal. The Alabama responded with a signal and then came the boom of cannon from the Gaulois, the traditional 21 guns being fired. This was followed by two patriotic airs from the band on board the Gaulois, one of these being the Marseillaise. Immediately thereafter the commissioners proceeded in launch to the Gaulois, and as they approached the French battleship a salute of 15 guns was fired.

BIG COAL COMBINE.

All the Indiana Interests Are to Be Consolidated.

Chicago, May 22.—Consolidation of all the coal interests in Indiana, covring 117 mines, of an annual output of 6,000,000 tons a year, and of a value of \$15,000,000, in one big corporation, with headquarters in this city, will be effected within a month.

John S. Bays of Sullivan, Ind., who is engineering the project, has been here two days in constant consultation with Chicago companies with mine interests in Indiana.

The plan upon which the corporation s being organized, it is understood, is that every mine in the state is to be transferred to Mr. Bays, who represents large capitalists. The 117 mines are owned by 75 companies. The interests of many of the smaller concerns will be bought outright, but in the case of the larger companies the members will be taken into the corporation as members of its board of

The effect of the consolidation, it is understood by coal men of this city, will be an increase in the prices of every quality of coal mined in Indiana.

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen: — Being entirely cured of deafness, thanks to your trealment, I will now give you full history of my case, to be used at your discretion.

About five years ago my right car began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physiciaus, among others, the most eminent car specialist of this city, who lold me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost for ver.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours,

CHAPTER VIII.—CONTINUED.

"This is a somewhat remarkable case," he said. "I will mention no names, but doubtless you can read between the lines. There was a man who murdered his wife in order that he might marry another woman. The thought which he gave to it, and the clever manner in which he laid his plans, not only for the murder but also for the disposal of the body, marked him as a criminal in the possession of a singularly brilliant intellect. He gave no hint to anybody, but left the country without leaving the faintest clew concerning his destination behind him. I was called in to talk over the case, but after some consideration could make nothing of it. I have no objection to admitting that I was completely baf-fled. Now it so happened that I discovered that the man's mother was of Irish extraction. He, believing that he would be safe on that island, engaged a passage on board a steamer from Havre to Belfast. She was to pick up at Southampton, Plymouth and Bristol, en route. My man, who, by the way, was a very presentable person, and could be distinetly sociable when he pleased, endeavored to make himself agreeable

The murderer, who, you must understand, was quite safe, was unhappily caten up with vanity. He could not forego the boast that he was the possessor of a magnificent ring, which had been given him by ex-Emperor Napolcon III. Need-

less to say this information excited considerable interest, and he was asked to produce it for the general edification "lle declared that it was too late to do so that evening, but said that he would do so on the morrow, or, at any rate, before he left the vessel. In the excitement of reaching South-

ampton, the matter was for the moment forgotten, but on the day that they arrived in Plymouth one of the lady passengers reminded him of his promise. This was followed by another application. Thus surrounded, the unhappy man found himself in the unpleasant position of being discovered in the perpetration of an unfruth, or of being compelled to invent some feasible tale in order to account for his not being able to produce the ring. 1st dam, Emrea Patchen, dam of George W. 2:24%, Lena Wilkes, record 2:29%, trial 2:12%, and Patchen Wilton, trial 2:21%, by Mainbrino Patchen 58.

As a producer of dams Mambrino Patchen is without an equal. He stred the dams of Alcyone, Alenntara, Baron Wilkes, Guy Wilkes, Wilkes Boy, Simmors. Ralph Wilkes 2:36% and over 1:0 with records in 2:30 and better. Mambrino Patchen's sons str d the dams of Cresceus, the world's champion trotter, and The Abbot, the champion trotting gelding.

2d dam, Emma, record 2:35, made in 1865, to high wheel suiky weighing 96 lbs., dam of Jerry 2:27%.

PATCHEN WILTON is a coal black horse, and for beauty, grace and action he is without a peer in Kentucky. With the rise of horse shows and road driving nowadays, the horse with plenty of good looks, action, soundness and speed, is the one that brings the fancy price. All of these virtues are combined in PATCHEN WILTON, and this is backed by the most fashionable breeding in the books. His sire is one of the greatest sons of George Wilkes, his dam a great producing daughter of Mambrino Patchen, his second dam a great producing daughter of Mambrino Patchen, his second dam a great race mare in her day and a producer.

House—The house was plunged into an exciting debate on Philippine af fairs. Thus far the subject of al leged atrocities in the islands has en gaged the attention of the senate alone and only occasional echoes have beer heard in the house. But Thursday the reports of cruelty and outrages were rehearsed in the house with vehe mence and bitterness. The naval bil was the order of the day, but it re ceived scant attention after the alle gations of Philippine outrages were presented. General debate on the na val bill closed at 4 o'clock and wher the house adjourned the measure was being read for amendment.

Washington, May 17.—Senate—An effort was made by Mr. Lodge (Mass.) in the senate to induce the minority to fix a time when a vote might be ta ken on the Philippine government bill but Mr. Dubois (Ida.), speaking for the democratic side, did not desire to specify a date for the vote. Assur ances were given that the minority was not seeking for delay, but wished simply that discussion should be ex hausted before the vote was taken. House - The house had another lively day of debate, Philippine atroc ities and the Schley case coming ir

for considerable attention after the

more exciting themes of debate came

Washington, May 20.—Senate—Only a brief time was devoted by the sen ate Monday to consideration of the Philippine government bill. Mr. Dol liver (Ia.) supported the bill, which he said was one of the most important pieces of constructive legislation pre sented since the civil war. He in sisted that the Philippine insurrection as a military proposition, was a thing of the past, and declared that in no cir cumstances would the United States relinquish the Philippines.

House-Before adjournment Mon day the house passed the naval appro priation bill. The feature of the de bate was on the amendment offered by Mr. Roberts (Mass.) providing that three of the ships provided for in the bill, a battleship, cruiser and a gunboat, shall be built in government yards. Mr. Adams (Pa.) made a point of order against the amendment, which Mr. Sherman sustained, but on az appeal by Mr. Roberts the chair was overruled and the amendment was agreed to. Under a suspension of the rules the bill for eight hour work on all government contracts was passed, also a bill authorizing the construction of a national sanitarium for disabled soldiers at Hot Springs, S. D.

Washington, May 21.—Senate—The subject of the concentration of the inhabitants in the Philippines into camps was a leading topic of the disto do better to-morrow.—Ram's Horn. cussion of the Philippine bill in the senate Tuesday.

House-For a third time within a week the house has instructed its conferees on matters of dispute between the senate and house Tuesday. The instructions were given on amend ments in the army appropriation bill before the conferees had even considered the matters in controversy. The motion to instruct was made by Mr. Cannon (Ill.), chairman of the appropriations committee. It was re sisted by Mr. Hull, chairman of the committee on military affairs, and the somewhat spirited debate which followed developed antagonism be-tween the committees. The amendment at which Mr. Cannon aimed was that which increased the appropriation for military posts from three to four million dollars. A resolution offered by Mr. Hitt, chairman of the foreign affairs committee felicitating Cuba on her independence was passed unanimously. A bill amending the passport law was passed. The remainder of the day was devoted to private claims bills.

Washington, May 22.—Senate—Before the senate resumed consideration of the Philippine bill it adopted a reso-Cuba upon its entry into the family of RYE—No. 2 601/4@ 61 PORK—Mess17 15 @17 20 of state was directed to transmit the resolution to the president of the re public. The senate also ordered the Associated Press account of the ceremonies of the transfer from the United States to the Cuban authorities printed in the Congressional Record, and as a public document.

House—The house began consideration of the immigration bill Wednesday. The principal speech was made by Mr. Shattuc (O.), chairman of the committee on immigration. He was especially severe in his condemnation of the manner in which immigrants are introduced through Canada and by Canadian railway and steamship companies. Mr. Underwood (Ala.) gave notice of an amendment to provide an educational test and much of the discussion during the day was upon this subject. The house earlier in the day settled three contested election cases in favor of sitting members and passed a number of bills of minor

DOMESTIC ABILITY.

The Girl from Finland Had a Unique Specialty in the Line of Housework.

An aristocratic East Superior street woman, who has had the usual number of failures in the way of domestics, having tried nearly every nationality, heard the other day that a number of girls had come here from Finland to seek employment as servants and that they were highly recommended as strong, intelligent, capable and generally excellent help, relates the Duluth News Tribune.

With high hope the housekeeper hied her to the office where these paragons were on exhibition, and was soon brought face to face with a brawny specimen, who could not speak a word of English. With the aid of an interpreter the following conversation took place:

"Can you cook?"
"Oh, no."

"Can you wash and iron?"

"No."
"Can you sweep and dust or clean house?"
"I have never done anything like that."
"For goodness sake," exclaimed the astonished matron to the interpreter, "ask her what she can do."
With calmness and complacency the reply came back: "I can milk reindeers!"

HE LOOKED DIFFERENT.

The Barber Had Shaved Him Before, But Failed to Recognize His Healed Face.

A Ninth street barber owns up that the following experience was his own less than a month ago. An actor from a neighboring theater dropped in one afternoon to be shaved, and seemed disinclined to talk. The barber, says the Philadelphia Times, is a believer in the theory of his tribe that conversation makes the process of shaving accieration. sation makes the process of shaving easier for the shavec—that the time seems to pass more quickly if the customer can be interested in this or that topic for the few necessary minutes. He tried the actor on the weather, the beef trust, the asphalt scandal and the new filtration plant without success. Then, just to keep things going, he asked:

asked:
"You have never been shaved in here before, have you, sir?"
"Oh, yes," replied the actor. "I was in here once when we played across the street about 18 months ago—in the beginning of

ast season, it was."
"Strange that I don't remember your face" commented the barber.
"Well, you see," came from his victim,
"my face has healed up since then."

"I am perfectly well," says Mrs. Martin. of Brooklyn. "Pe-ru-na cured me."

Mrs. Anna Martin, 47 Hoyt street, Brooklyn, N. Y., writes:

"Peruna did so much for me that I feel it my duty to recommend it to others who may be similarly afflicted. About a year ago my health was completely broken down, had backache, dizziness and irregularities, and life seemed dark indeed. We had used Peruna in our home as a tonic and for colds and catarrh and I decided to try it for my trouble. In less than three months I became regular, my pains had entirely disappeared, and I am now periectly well."—Mrs. Anna Martin.
